- ★ **Sabco, Inc.** | Vancouver, Wa  
1990–1991  
Graphic Designer

- ★ **becker&mayer!** Most recently, I was a designer in the juvenile department of this company. Clients include *Disney, Chronicle Books, Scholastic Books, and Build a Bear*. Most of our products would be defined as “book-plus”, meaning that there is usually some kind of toy included with the book.
- ★ **Collectors Press** As creative director, I had creative control over books published, website design and company collateral. I also headed up design of a new gift line being developed by the company. I personally designed approximately two 148 page gift books per publishing season and oversaw freelance designers in designing overflow books.
- ★ **Curiosity Group** Created, illustrated and designed various downloadable “paper crafts” for client websites including *Hewlett-Packard, Dreamworks Pictures, Paramount's Lifetime channel, AOL Time Warner* and others. Crafts included such items as customizable greeting cards and picture frames, holiday ornaments and cd covers, t-shirt transfers, business identity kits, scrapbook kits, dioramas, tattoos, stickers, etc. Crafted and photographed step-by-step instructions and final products for website use. Finished files needed to be fully customizable (text and photos) by the user within Adobe Reader.
- ★ **Meridian Technology Group** Created new business identity. This included designing new logo, corporate identity package, brochure and website.
- ★ **Lazerquick** Designed corporate identity packages, brochures, posters, flyers, logos, etc. for walk-in customers. Pre-flighted files for offset-printing and occasionally assisted customers with computer-related concerns.
- ★ **TV Host magazine** Typeset/layout for cable guides and designed advertisements and logos.
- ★ **Sabco** Illustrated community bulletin board signs displayed at grocery and retail stores along the west coast.
